

## TRIPPING MY FACE OFF

You crack your eyes  
You shine and rise  
You step out from the latest dream  
You had

You took her to  
Your private zoo  
And then gravity comes down  
On you

I'm tripping my face off  
Tripping my face off  
Tripping my face off  
Tripping my face off

Nothing prepared you for that smile  
You stare back and zone out for a while  
You can't even see the traffic signs  
Shily step out off your way

Stampedes of liquid cracking eyes  
Wait for a chest to fall and rise  
It's hitting you hard and in return  
You hit the road for nothing

I'm tripping my face off  
Tripping my face off  
Tripping my face off  
Tripping my face off

Run down, run down  
Run down, run down  
Run down, run down

And don't turn back  
And don't turn back

I'm tripping my face off  
Tripping my face off  
Tripping my face off  
Tripping my face off

U don't wanna know

Don't ask for the truth on a sunny day  
Don't ask for the truth on a sunny day  
Don't ask for the truth on a sunny day
